TERMS OF SALE

The minimum order for acceptance this year will be 50 cuttings on any one variety.

The order need not be of a larger quantity than 50 cuttings, just so long as the 50 cuttings are of one variety.

All varieties must be ordered in multiples of 50.

All shipments are forwarded by best carrier, in our judgment, at time of delivery, unless otherwise specified by customer.

If a shipment reaches you in bad condition notify agent, and bring claim against delivery company for damages by their negligence, or if you would care to have us file the claim, then get a bad order report from the agent and forward same to us.

We mail all flower seeds free to any point in the United States.

DISCLAIMER. While we, George K. Groff, exercise the greatest care to have all seeds pure and reliable, and all plants and cuttings true to name we do not warrant in any way, expressed or implied the contents or the description, quality, productiveness, or any other matter of any seeds, bulbs or plants sold by us, and we will not be in any way responsible for the crop. If the purchaser does not accept these terms, the merchandise must be returned at once, and no sale is made thereof. All advance orders accepted subject to crop failure and any other causes beyond our control. All claims must be made five days after receipt of goods.

NEW INTRODUCTIONS FOR 1948-49

GOLDEN ANNIVERSARY — A yellow pompon about the size of Sunnyside that flowers for Christmas and later.

BRONZE MINUET—Bronze sport of Minuet.

MARY McARTHUR—A pinkish bronze early high quality small pompon. The flower resembles Mrs. Bulkeley in size and form and substances. It responds very well to black cloth shading and is very useful in the earliest shading, also grown as a garden variety in some sections.

MINSTREL—A large lavender Pompon of excellent substance. Easily the best pompon in this color class for December and Christmas.

CHRISTMAS STAR—This variety was originally shown as Carnival at the National Mum Show. A scarlet red single flowering for Christmas.

YULEFLAME—A large decorative yellow pompon similar to Vibrant which blooms with the variety Revelation.

Price on above varieties — per 1000

500 up	100 to 450	50
\$7.00	\$7.50	\$8.00

SPECIAL NOTICE

So that we may be able to assure delivery, and that you may have a well co-ordinated Chrysanthemum program—may we suggest the following procedure for ordering Mum cuttings this year—

For the September 1949 Crop, place order during month of October 1948.

For the October 1949 Crop, place order during month of November 1948.

For the November 1949 Crop, place order during month of December 1948.

For the December 1949 Crop, place order during month of January 1949.

The Chrysanthemum cutting growers, have recommended the above schedule to all growers who are interested in a well co-ordinated program.

PINCHING DATES

Most growers are aware of the approximate pinching dates of varied varieties, but for natural blooming varieties, the following schedule can be applied—

Approximate Last Pinch Dates	Pompons, etc.	Standards
Varieties blooming before Oct. 20th pinch.....	July 1	July 5
Varieties blooming between Oct. 20th and Nov. 1st, pinch	July 5	July 10
Varieties blooming between Nov. 1-10 pinch.....	July 10	July 15
Varieties blooming between Nov. 10-15 pinch.....	July 15	July 20
Varieties blooming between Nov. 15-20 pinch.....	July 20	July 25
Varieties blooming between Nov. 20-25 pinch.....	July 25	Aug. 1
Varieties blooming between Dec. 10 & later pinch.....	Aug. 5	Aug. 10

When shading with black cloth it is recommended by the specialists, that the majority of Pompons should be pinched 35 to 45 days prior to the application of shading, and Standards should be pinched 30-40 days prior to the application of black cloth. However, some growers use a method of pinching quite to the contrary of the above dates, and get very satisfactory results.

The object of all pinching in Standards—is to eliminate the long necks and poor color that result from a crown bud that appears too early, and also to eliminate the small open centered flowers that result from a terminal bud that appears too late.

On Pompons and singles the purpose of pinching is to eliminate the long awkward sprays (so hard to bunch) that are a result of the stems forming crown buds. It is also the purpose to eliminate closely clustered flowers on a stem of Pompons or singles that are the result of delayed bud formation.

All Double Petunias For Profit

The imported all double favorites are available once again—and this strain is well worth the growers time and greenhouse space.

WORLD BEAUTY—(Rosy Carmine Impr.)

The bright rose color of this variety with fringing and doubleness of flowers will be popular with your customers.

LOVELINESS—A La France or salmon pink color, that will be especially valuable.

BLUE BROCADE—An excellent bloomer of true violet blue.

WHITE—(Snowball) large well fringed flowers, that are pure white. Excellent for Mother's Day.

ORCHID BEAUTY—A good light blue or silvery-lilac that is free flowering and well fringed.

ALL DOUBLE DWARF MIXED—(Victorious) The flowers are very large and well balanced in color.

There are some newer varieties available this year in the all doubles—but until we see them in flower, we cannot offer them as the best in color and form, as those listed above.

Price— $\frac{1}{2}$ Trade Packet—\$2.00 (at least 400 seeds)

1 Trade Packet—3.50 (at least 800 seeds)
